Case Study: Human Rights

ESET® NOD32® Antivirus

Business Edition

ESET: Accuracy and Low System Overhead

Amnesty International is a worldwide movement of people who campaign for internationally recognised human rights for all.

It has more than 2.2 million members and subscribers in more than 150 countries and regions, and coordinates support to act for justice on a wide range of issues. Within Ireland, Amnesty International Irish Section campaigns and carries out research to oppose attacks on the human rights framework.

Barry Fox, IT Systems Administrator of Amnesty International Ireland tells us why they've switched to using ESET NOD32 Antivirus in 2008.

OVERVIEW

● Organisation

- Amnesty International Ireland

● Pains

- high cost and high memory footprint of previous solution
- missed malware

● Solution

- ESET NOD32 Antivirus

● Results

- easy deployment
- increase in free memory
- better detection

● Quick Facts

- more than 2.2 million members and subscribers in more than 150 countries and regions

QUOTE:

“Once we had deployed ESET NOD32 Antivirus I was amazed at the low administrative overhead. I am really pleased with ESET NOD32 as an antivirus solution and would recommend it to anyone!”

– Barry Fox, I.T. Systems Administrator
Amnesty International Ireland

“Amnesty International Ireland have been using Eset NOD32 Antivirus Business Edition since 2008. Prior to this we were using Trend Micro OfficeScan and although we were quite happy using it, the cost and the significant memory footprint of the software prompted us to look for other solutions.

Installation, configuration and deployment of ESET NOD32 Antivirus were very straight forward and we did not run into any problems.

The first noticeable impression I got on deployment of ESET NOD32 Antivirus was the client installation. It took only 25MB of disk space and there was a significant increase in free memory on the PC’s and Servers it was installed on.

It also immediately picked up some spyware on a few PC’s that Trend Micro’s OfficeScan missed.

Once we had deployed ESET NOD32 Antivirus I was amazed at the low administrative overhead. I am really pleased with ESET NOD32 as an antivirus solution and would recommend it to anyone!”
