Case Study: Manufacturing

ESET NOD32 Antivirus

Business Edition

ESET: Recommended!

Established in 1982 by Pat Kent, Kent Stainless employs around 130 people at its high-tech manufacturing plant in Ardavan, Wexford and is a market leader in the design and manufacture of stainless steel products.

In recent years the company has invested heavily in both plant and people to build a powerful team with advanced design skills backed by precision engineering facilities.

Brian Fanning, IT Manager of Kent Stainless told us why they're happy using ESET NOD32 Antivirus since 2005.

OVERVIEW

● Company

- Kent Stainless

● Pains

- regular virus infections
- decreased performance

● Solution

- ESET NOD32 Antivirus

● Results

- protection against viruses
- excellent performance

● Quick Facts

- engineering and manufacturing of stainless steel products
- modern purpose built 8,000m² plant
- ESET NOD32 installed on 40+ PC's / servers

QUOTE:

“I would recommend ESET to anyone.”

– Brian Fanning, IT Manager
Kent Stainless

“Prior to installing ESET NOD32 Antivirus, virus infections were a regular event on our systems. The rate of infections dropped to zero immediately upon installation of ESET NOD32 Antivirus

The majority of our computers are used for generating CAD drawings and the most likely means of infection is through e-mail. Since we’ve been using ESET NOD32 Antivirus, significant down time has been saved because of regular detection and prevention of viruses in incoming mail.

The installation and set up is foolproof, the program itself is very user friendly and a minimum of assistance is required. Any questions we have had, have always been dealt with quickly and professionally by the support team of ESET Ireland.

Unlike some antivirus products, ESET NOD32 Antivirus scans quietly in the background, providing excellent antivirus protection with no noticeable decrease in computer performance.

I would recommend ESET to anyone.”
